The path passes first the wood, then several moors and finally almost flat alpine pastures. Beautiful views at the Dolomites are always present. Advices and suggestions: this easy and wonderful tour can be extended by using the really beautiful upper path nr. 13 reaching the [Klammbach Alp](#). This alternative is not possible for strollers
Vice versa going up by cable car Drei Zinnen – [Klammbach Alp](#) – [Nemes Alp](#) and back home is a beautiful alternative with very little going up!

Summary: a wonderful panorama tour with the Dolomites of Sesto and the natural clock formed by the mountains of Sesto and beautiful huts.
