

19. Punta Erbing (2301m)

an exposed and steel via ferrata to the Pomagagnon (medium)

Chiave (Rif. Col Tondo) – Costa del Bartaldo – Punta Erbing – Forcella Zumeles - Chiave

- **Description:** the third part to the Pomagagnon is very strenuous. Only a few passages are with fixed rope, the major part is scree. Attention: the ferrata goes diagonally and therefore you have to take care from rock falling! For not good trained people we suggest to secure yourself with a rope. This ferrata can be combined with the ferrata Strobel (n. 18).
- **Starting point:** Rifugio Col Tondo (1429m) at north-east from Cortina, reachable from Chiave or from Mietres (1710m) with the chairlift. The lift is open from beginning of July to the end of September
- **Duration:** total 5 hours, ascent 3 ¼ hours, descent 1 ¾ hours
- **Difference in altitude:** ca. 900m
- **Indications:** red-white-red with the nr. 204, 211 and 205
- **Highlights:** View to the Sorapiss and the surroundings, view to Cortina d'Ampezzo - unique!
