Description of the way:

From the Berghotel, drive by car to Braies to the parking place at **Ponticello**. From there, take the bus up to the parking place at **Prato Piazza** (2000 m). Take path no. 3 across the alpine meadows towards the Malga Stolla and then continue towards the **Malga Rossalm**. After several short ascents and descents, you reach a passage with a hand rope safety device. After about 3 hours you reach the Malga Rossalm. From the alpine pasture, take the wide path no. 4 down to the valley back to the parking place at **Ponticello**.

Physical requirements:

A way where you need equilibration and not to be high shy.

Panorama:

View to the group of Cristallo and the Three Peaks.

Indications:

In low season, spring and autumn when there is no shuttle bus from Brücke/Ponticello up to Prato Piazza/Plätzwiese you need to calculate 1 ½ hours more going up. This high mountain walk through the rocks is really beautiful with excellent views not only at the Tre Cime.
