

23) At the Corno di Fana / Pfannhorn – a wonderful vista point above Dobbiaco

Starting point: passing the centre of Dobbiaco in direction Wahlen further on until Candelle/[Seiterhof](#)

At a quick view: Candelle/restaurant [Seiterhof](#) – Valle S. Silvestro – Corno di Fana

Difference in altitude: 1090m

Highest point: Corno di Fana (2663m)

Time of walking: 5-6 hours (Candelle – Corno di Fana 3,5 hours – descent 2 hours)

Trail: Nr. 25 and 25a

Huts: [Seiter restaurant](#) or [Bonner hut](#) (2.307 m) – a very nice and lonely hut

Description of the way: From the Berghotel we start by car direction Dobbiaco, then to Wahlen to the restaurant Seiterhof/Kandellen. After the restaurant we follow the wide farm track No. 25, cross the Golfenbach stream and continue to the right until the actual mountain track begins on the left. In serpentine we walk through the forest up to the timberline. We walk past the cosy Bonnerhütte (2,307 m) and continue to the summit cross at the Toblacher Pfannhorn (2,663 m).

The descent is either on the same route or you choose path no. 25A, which extends the tour a bit, but makes it a varied circular hike through the Golfen Valley to Kandellen.

Physical requirements: long and strenuous excursion, but easy trails

Panorama: wonderful round view to the Dolomites, one of the best! – Also the terrace of the [Bonner hut](#), a very cosy and well managed hut, could be in a movie!

Indications: Trained people can proceed from the summit to the Markinkele (2545m), descent to the Silvester Alp and back to the starting point.
