## Description of the way:

From the Berghotel, drive by car to Dobbiaco, pass the Lachwiesen hut to the **Bodeneck parking place**. From there, take hiking path no. 1A to the **Malga San Silvestro**. Continue on path no. 1 until you reach a crossroads, where you take the left-hand path towards the **Rifugio Bonner**. You pass the Rifugio Bonner (2,307 m) and continue the hike to the summit cross on the **Corno di Fana/Pfannhorn** (2,663 m). The descent follows the same route.

## Panorama:

Wonderful round view to the Dolomites, one of the best! – Also the terrace of the Bonner hut, a very cosy and well managed hut, could be in a movie!

## Indications:

Trained people can proceed from the summit to the Markinkele (2545m), descent to the Silvester Alp and back to the starting point, or decent earlier on path nr. 1B.

## Physical requirements:

Long and strenuous excursion, but easy trails.
