Follow the continuous signposts and return to the Innerfeldtal valley and return to the car park.

**Physical requirements:** a long excursion with a very, very short and easy via ferrata

**Panorama:** after the Passo Rondoï /Wildgrabenjoch perfect view to the Three Peaks, the Monte Paterno and more. After every step you see “growing” the Tre Cime

**Indications:** this is a very good possibility to get close to the Tre Cime without many persons. At the Passo Rondoï there is a very easy and short passage with a fixed rope.
