MONTE SERLA

🕒 5-6 h 📍 11,5 km ⚠️ 1130 hm

Description of the way:

From the Berghotel we start by car to the historical walls of the former **Bad Altprags at Braies**. We walk past the Hotel Asterbel and on to the **Putzer mountain pasture**. Now we follow the "Dolomitenhöhenweg" nr. 3, through "rugged terrain" to the Sarlsattel, where we keep to the right and thus climb a partially exposed path and the summit.

Heading home, the **Sarlsattel** leads us over the Dolomitenhöhenweg to the Sarlriedl-Joch at the foot of the Dürrestein. Along the Sarlbachl we return to the valley to our starting point.

Panorama:

One of the best lookouts at Dobbiaco with beautiful meadows.

Indications:

A wonderful tour where the path varies a lot, the last part to the summit is a little bit exposed and it is good not to be high shy.

Physical requirements:

Easy to go but long, some exposal parts.

TAPPEINER.
