

Winter hike 3: San Candido / Innichen

Starting point: Moos/Berghotel (1370m)

At a short view: Berghotel – Sesto – San Candido

Difference in altitude: - 233m

Time of walking: 3-4 hours

Difficulty: 1

Description of the way: From the Berghotel to the church of Moso, take a right the Heideckstreet until the end. We cross the bridge and take the way right towards Sesto. We pass the swimming/climbing area of Sesto and at the Sparkasse (bank) we cross the road and go up passing the church of Sesto (visit the wonderful cemetery of Sesto). We take a left and follow the Lanerweg which becomes the path nr. 5 to San Candido. We cross fields, pass some farms and reach the wood. Continuing on the path nr. 5 we reach San Candido from where we take the bus (schedule at the reception) to come back to Moso and the Berghotel. At San Candido it is absolutely worth visiting the church.

Tips and advices: very little difference of altitude and no special efforts, a comfortable forest way. Pass the cemetery (watch it!) and also the Stifts Church in San Candido (9th century).

Summary: a very nice and calm excursion with the possibility to mix culture and shopping at San Candido.
