### Tour details:

This tour starts from the Berghotel in Moos, takes the panoramic road to **Restaurant Waldruhe** and continues along a **forest path in the direction of Versciaco**, from there over Monte Versciaco to **Piazza San Silvestro**. From there, the ascent begins via an **old military road** to the **Marchkinkele** (2,540 m). From there along the ridge over a **very narrow trail towards Corno di Fana**, the last ascent is then only partially rideable and you have to accept a **carrying passage** of approx. 30 minutes. The reward is a marvellous view of the Dolomites and the Three Peaks. Once you reach the highest point at just under 2,600 metres, you descend to **Bonner Hut** via a **technically difficult** but completely rideable **trail**. A dream trail starts directly from the terrace of Bonner Hut in the direction of **Silvester Hut**, with just 70 cm of trail available for the first 1-2 km - pure adrenaline, always along the abyss. The absolute highlight is the subsequent flowing trail over a dreamlike alpine landscape to the Silvester Hut. You return via the **Silvester Valley** to **Dobbiaco**, **San Candido** and **Sesto**. A dream tour, but **technically** and **physically very demanding**.
