## Description of the way:

First, take the Helmjet up to the **Monte Elmo mountain station** (2041 m). From there, take trail no. 20 to the Monte Elmo summit. Follow a small path to the **Hasenköpfl** (2226 m), the last section leads up a steep rocky path until you reach the summit of the **Monte Elmo**. From there, you can either take the steep path along the Monte Elmo ridge no. 3A or the more pleasant path no. 20 back to the mountain station. Descending by foot back to the Berghotel passing the Rifugio Larice, Sette Baracche and the Rifugio Pendio del Monte Elmo, this route takes around 1.5 to 2 hours.

## Variant:

From the Mount Elmo peak on the crest to the Sillian hut (Austria) – down to Klammbach and back to the Berghotel.

## Advices and suggestions:

This easy round walk bring you on the top of the Mount Elmo. It is one of the most beautiful vista points and offers a 360 ° view with the central Alps Mountains in the north and the many, many Dolomites peaks in the south. This tour is ok also for a half day trip.

## Summary:

A very nice round tour with panoramic views – with good weather absolutely a must!
