Description of the way:

From the Berghotel, you can either drive by car (toll road!) or by bus to the parking place at the **Auronzo hut** (Rifugio Auronzo). The circular hike begins there on the flat and sunny gravel path no. 101. After about 15 minutes you reach a small church and immediately afterwards the Lavaredo hut (2344 m). From there, continue to the **Forcella Lavaredo**, the highest point of the hike (2452 m). Slightly descending and later slightly ascending again, the path continues along the foot of the Monte Paterno to the **Rifugio Locatelli**. From there you have a breathtaking panorama of the majestic Dolomite peaks. The route then continues along path no. 105 in the direction of the Rifugio Lange Alm. From there, follow the hiking path back to the starting point.
