THE WAY AROUND SESTO

⌚ 3-4 h

📍 11.2 km

⚡ 326 hm

Description of the way:

The entire path is marked with number 1!

Starting from the Berghotel, the path ascends to the right, crosses the bridge, passes the **Bruggerlift**, and continues along a narrow path bordering the forest until reaching the forest road to the alpine pasture Malga Nemes. After a short while, you turn right onto the first forest path, passing by a beehive through a short stretch of woods, and then reaching the **Signaue** and the Rifugio Pollaio after a change in direction. Following the path above the bridge on the right side, you return to the eastern end of Moso, cross the main street, and proceed towards the **cable car Croda Rossa**. Briefly, you take path no. 102 into

Val Fiscalina, then turn right at the trail post to access the upper meadow path. Descending along this path, you reach **ex fortress Haideck**. Further down, in a sharp left turn, a small forest path leads downhill to **Sesto**. After crossing the main road there, you go direction to the **Restaurant Kiniger**. Slightly above these farms, the trail brings you back to the Berghotel.

Advices and suggestions:

A short but nice hiking tour, which is ideal to discover our valley and to get a first view. Nice for a half day or with kids, because the path is well planned and there are many interesting plays and descriptions all the way long.

Summary:

A short and easy round tour to explore the valley of Sesto, makeable also in stages.
